You should not make any purchase decision based on this leaflet only and should refer to the relevant product brochure and policy contract.

- Policy owner: Patrick (Father, age 31), bank manager
- Insured: Andrew (Patrick's son, age 2)

## "I want future generations of my family to have reliable foundations for a wonderful life."

Patrick's son, Andrew, is 2 years old. Planning ahead, Patrick wants to start an education fund so that Andrew's education expenses would not become a burden to the family. He decides to take out a Wealth Genius policy with a notional amount of USD27,742. The premium payment term is 3 years with an annual premium of USD20,000 (total premiums paid: USD60,000).

With Wealth Genius, Patrick can

USD1,803.23 per year
USD1,803.23 per year
\% of the latest notional amount ${ }^{5}$

Andrew, age 19-22
Patrick withdraws USD6,250 annually to pay for Andrew's university tuition fee (total withdrawals: USD25,000)

Total cash value* after withdrawal at the end of the $20^{\text {th }}$ policy year: USD78,796
(which is around 1.3 times the total premiums paid)

Patrick
Notes:

* "Total cash value" is the sum of (i) guaranteed cash value, (ii) accumulated cash coupons and interest, (iii) accumulated annual dividends and interest, and (iv) terminal dividend. "Maturity benefit" is the sum of (i) accumulated cash coupons and interest, (ii) accumulated annual dividends and interest, and (iii) terminal dividend. The values are projected with the Company's current (i) dividend scales and (ii) interest rate on accumulated dividends and accumulated cash coupons of $3.5 \%$ p.a. The dividend scales and interest rate are not guaranteed and may be changed by the Company from time to time. The actual amounts payable may be higher or lower than those illustrated.
\# The change of insured option is only available after the end of the $8^{\text {th }}$ policy year and during the lifetime of the insured. The change of insured option is subject to the relevant terms, conditions and eligibility requirements. Please refer to the product brochure and policy contract for details.
The illustrative example above assumes (1) annual premium payment mode is chosen and all premiums are paid in full when due and as planned; (2) there is no indebtedness under the policy; (3) figures are rounded to the nearest whole number; (4) the total premiums paid excludes the levy collected by the Insurance Authority; (5) no other policy benefits or claims have been paid or becomes payable and no withdrawals have been made except for the withdrawals specified in the illustrative example above; (6) the stated withdrawal amounts (if applicable) are made at the beginning of the relevant policy years; and (7) the notional amount of the policy remains unchanged throughout the policy term.

- Policy owner and insured:

Steven (age 27), fintech consultant

Illustrative example 2
"I want to accumulate wealth and guard my family for a secure future."

Steven works hard to develop his career as a fintech consultant. Understanding the importance of accumulating wealth early, he takes out a Wealth Genius policy for saving purpose and future planning. The notional amount is USD45,739, the premium payment term is 10 years and the annual premium is USD10,000 (the total premiums paid: USD100,000).

With Wealth Genius, Steven can
accumulate
wealth with
guaranteed cash
coupons $^{1}$

## GUARANTEED

 extra cash coupon 8.5\%(from the end of the $5^{\text {th }}$ policy year to the end of the $15^{\text {th }}$ policy year)

## Steven, age 71

Withdraws USD125,000 to pay for travelling around the world with his wife

Total cash value* after withdrawal at the end of the $44^{\text {th }}$ policy year: USD278,127
(which is around 2.8 times the total premiums paid)

## Steven, age 81

Withdraws USD62,500 to establish a charity fund to contribute to the society

Total cash value* after withdrawal at the end of the $54^{\text {th }}$ policy year: USD339,079
(which is around 3.4 times the total premiums paid)

> Steven, age 94
> Steven passes away

> His beneficiary chooses to receive the death benefit^ by monthly instalments of 10 years (USD4,551 per month, USD546,179 in total ${ }^{+}$which is around $\mathbf{5 . 5}$ times the total premiums paid)

Notes:

* "Total cash value" is the sum of (i) guaranteed cash value, (ii) accumulated cash coupons and interest, (iii) accumulated annual dividends and interest, and (iv) terminal dividend. The values are projected with the Company's current (i) dividend scales and (ii) interest rate on accumulated dividends and accumulated cash coupons of $3.5 \%$ p.a. The dividend scales and interest rate are not guaranteed and may be changed by the Company from time to time. The actual amounts payable may be higher or lower than those illustrated.
$\wedge$ "Death benefit" is the sum of (i) the higher of (a) guaranteed cash value and (b) total notional premiums less sum of notional cash coupon, (ii) accumulated cash coupons and interest, (iii) accumulated annual dividends and interest, and (iv) terminal dividend. The values are projected with the Company's current (i) dividend scales and (ii) interest rate on accumulated dividends and accumulated cash coupons of $3.5 \%$ p.a. The dividend scales and interest rate are not guaranteed and may be changed by the Company from time to time. The actual amounts payable may be higher or lower than those illustrated.
+ The monthly instalment and the total amount of the death benefit do not include accrued interest on the balance of the unpaid death benefit.
The illustrative example above assumes (1) annual premium payment mode is chosen and all premiums are paid in full when due and as planned; (2) there is no indebtedness under the policy; (3) figures are rounded to the nearest whole number; (4) the total premiums paid excludes the levy collected by the Insurance Authority; (5) no other policy benefits or claims have been paid or becomes payable, except for the death benefit specified in the illustrative examples above and no withdrawals have been made except for the withdrawals specified in the illustrative example above; (6) the stated withdrawal amounts (if applicable) are made at the beginning of the relevant policy years; and (7) the notional amount of the policy remains unchanged throughout the policy term.

- Policy owner and insured: Nancy (age 33), designer

## "I want to reach for my dreams and safeguard my future, so I can enjoy a carefree life."

Nancy is passionate about her design career. She wants to lay solid foundations for her future so she can seize opportunities as they arise and realise her dreams. Seeking for both savings and life protection, she takes out a Wealth Genius policy at age 33. The notional amount is USD35,051, the premium payment term is 5 years and the annual premium is USD15,000 (total premiums paid: USD75,000).

With Wealth Genius, Nancy can

Note:
$\wedge$ "Death benefit" is the sum of (i) the higher of (a) guaranteed cash value and (b) total notional premiums less sum of notional cash coupon, (ii) accumulated cash coupons and interest, (iii) accumulated annual dividends and interest, and (iv) terminal dividend. The values are projected with the Company's current (i) dividend scales and (ii) interest rate on accumulated dividends and accumulated cash coupons of $3.5 \%$ p.a. The dividend scales and interest rate are not guaranteed and may be changed by the Company from time to time. The actual amounts payable may be higher or lower than those illustrated.
The illustrative example above assumes (1) annual premium payment mode is chosen and all premiums are paid in full when due and as planned; (2) there is no indebtedness under the policy; (3) figures are rounded to the nearest whole number; (4) the total premiums paid excludes the levy collected by the Insurance Authority; (5) no other policy benefits or claims have been paid or becomes payable, except for the cancer advance benefit specified in the illustrative examples above and no withdrawals have been made except for the withdrawals specified in the illustrative example above; (6) the stated withdrawal amounts (if applicable) are made at the beginning of the relevant policy years; and (7) the notional amount of the policy remains unchanged throughout the policy term.

## Remarks

1. The cash coupons will be available starting from the end of the $3^{\text {rd }}$ or $5^{\text {th }}$ policy year, depending on the chosen premium payment term.
2. "up to age 138 " refers to the day before the maturity date (the maturity date is the policy anniversary on or immediately following the initial insured's $138^{\text {th }}$ birthday, whichever is earlier).
3. After a cancer waiting period of 5 years, if the insured or policy owner is first diagnosed with a cancer at or before the age of 80 , a cancer advance benefit which is equal to $100 \%$ of the death benefit will be paid to the policy owner. The amount of the cancer advance benefit will be calculated as at the time when the benefit becomes payable. Cancer advance benefit only applies to a policy owner who is an individual. Once the cancer advance benefit is payable, the policy will automatically terminate. The cancer advance benefit is subject to the relevant terms, conditions and exclusions. Please refer to the product brochure and policy contract for details.
4. Under the death benefit settlement option, there are 2 options for the payment of the death proceeds. The death proceeds can be paid either (i) in a lump sum or (ii) by instalments at such regular intervals over a specified period of time to be agreed by the Company. The death benefit settlement option is subject to the relevant terms and conditions. Please refer to the product brochure and policy contract for details.
5. The notional amount is used for the calculation of premium, guaranteed cash coupons and relevant policy values of Wealth Genius; it is not equivalent to the death benefit of the insured and is only one of the factors in determining the death benefit payable.

Wealth Genius Income Plan is underwritten by AXA China Region Insurance Company (Bermuda) Limited (Incorporated in Bermuda with limited liability) ("AXA" or the "Company").

The plan is subject to the terms, conditions and exclusions of the relevant policy contract. AXA reserves the final right to approve any application. This leaflet contains general information only and does not constitute any contract between any parties and AXA. It is not a policy. For detailed terms, conditions and exclusions of the plan, please refer to the relevant product brochure and policy contract, which will be made available by the Company upon request.
