When you apply for **WiseProtect Pro**, it is essential to disclose your current health conditions for underwriting purposes. Should we identify any known disabilities or conditions during the process, we will notify you of any case-based exclusion or loading from coverage before policy issuance.

Flexible benefit level options

WiseProtect Pro offers different coverage to suit your needs under 4 benefit levels (**Regular**, **Enhance**, **Premier** and **Noble**). You will be given a choice of 3 ward classes (General ward, Semi-private room and Standard private room), 3 geographic regions and 3 levels of annual deductibles ranging from MOP0 to MOP50,000.

If you change your place of residence, you will have the right to upgrade your benefit level to **Noble** without having to go through medical re-underwriting¹⁰ given there is no change in the deductible. Such right can only be exercised once per lifetime only for each insured person.

More affordable healthcare with annual deductible options

The higher the deductible, the lower the premium – an annual deductible is the amount you are responsible to pay to cover healthcare services before your plan starts to pay.

WiseProtect Pro offers 3 annual deductible options^ MOP0, MOP20,000 or MOP50,000.

To give you more flexibility in budget planning for post-retirement, you have the right to reduce or remove your existing deductible for the same benefit level without medical re-underwriting – you can do this once per lifetime by submitting a written request within 30 days before the renewal date on or immediately following the insured person’s 55th, 60th, 65th, 70th or 75th birthday.

^ Currency of deductible options follows the policy currency

Important information

Disclosure obligation for underwriting

It is important for you to declare all requisite information that would affect the underwriting decisions of the Company. The Company has the right to re-underwrite the policy or declare the policy void as from policy effective date in case any material fact relating to the health related information affecting the risk is incorrectly stated in or omitted from the application form or any statement or declaration made by the owner and/or insured. If the non-health related information of the insured person (including but not limited to age, sex or smoking habit) is misstated in the application, the Company may adjust the premium, for the past, current or future policy year, or declare the policy void on the basis of the correct information.

During re-underwriting process, we consider a number of factors including but not limited to medical risk, financial risk, personal risk and moral hazard risk.

Cooling-off period

If you are not completely satisfied with the policy, you have the right to cancel the policy and obtain a refund of any premium(s) paid provided that there is no claim payment made under the policy prior to your request for cancellation. To exercise this right, please return the policy (if applicable) and send your signed written notice of cancellation directly to our Customer Service at Avenida do Infante D. Henrique No.43-53A, 20 Andar, The Macau Square, Macau within **21 calendar days** immediately following the day of delivery of the policy to you or your nominated representative. The policy will then be cancelled and a refund of any premium(s) paid will be returned to you in policy currency.

Cancellation

After the cooling-off period, the policy holder can request cancellation by giving 30 days prior written notice to the Company, provided that there has been no benefit payment during the relevant policy year. No premium or proportion of the premium will be refunded to the policy holder if cancellation is initiated by the policy holder and accepted by the Company before the expiry date.

Submission of claims

All claims with relevant information must be submitted to the Company within 90 days after the date on which the insured person is discharged from the hospitals, or (where there is no confinement) the date on which the relevant medical service is performed and completed. Relevant information includes, without limitation, (a) all original receipts and/or original itemised bills together with the diagnosis, type of treatment, procedure, test or service provided; and (b) certificates, reports, evidence, referral letter and other data or materials as reasonably required by AXA for processing of such claim.

You have to notify us if claims cannot be submitted within the above timeframe, otherwise we shall have the right to reject such claims submitted after the above timeframe.

Policy currency

If your policy is denominated in a currency other than your local currency, you may face an exchange rate risk. Upon currency conversion, the amounts you receive and the premiums you pay may vary as a result of changes in exchange rate.

Important information (cont'd)

Premium adjustment

The initial premium is based on the age of the insured person at the time of policy issuance and other factors including but not limited to the gender and risk class of the insured person and the benefit level of your policy. Premium rates are not guaranteed and may be adjusted by the Company at any of the policy anniversaries if necessary. We consider factors including but not limited to (i) the Company's claims and policy persistency experience and (ii) expected claim outgo from all policies under this plan in future years, reflecting the impact of medical trend, medical cost inflation and product feature revisions.

Non-payment of premium

You should pay premiums for the whole of your premium payment term. Any premiums remaining outstanding at the end of the grace period (i.e. 31 days after premium due date) may lead to termination of your policy. You may lose the insurance protection offered by the policy.

Automatic revision of benefits

Irrespective of whether the Company revises the terms and benefits of policy contract upon renewal, the Company shall give you a written notice of the revised terms and benefits not less than 30 days prior to the renewal date. The written notice shall specify the premium for renewal and renewal date. If the Company revises the terms and benefits of policy contract upon renewal, the Company shall make available the revised terms and benefits to you together with the written notice. The revised terms and benefits and premium for renewal shall take effect on the renewal date.

Termination

The policy will be automatically terminated on the earliest of the followings:

- (a) non-payment of premiums after a grace period of 31 days after the premium due date;
- (b) the day immediately following the death of the insured person; or
- (c) the Company has ceased to have the requisite authorisation under the applicable laws and regulations to write or continue to write the policy.

You may apply for policy cancellation by giving 30 days prior written notice to the Company in accordance with the application procedures and administrative rules of the Company in force from time to time. We will process the relevant application after our receipt of your valid written application (in the form specified by us). Please contact your financial consultant for further details.

Reasonable and customary charges and medically necessary treatments

We will only reimburse the reasonable and customary charges actually incurred for eligible treatments that are covered under the policy which are medically necessary (as defined in policy contract). If the charges are higher than the reasonable and customary charges, we will only pay the amount which is reasonably and customarily charge.

In determining whether a charge is reasonable and customary, the Company shall make reference to the followings (if applicable):

- (a) treatment or service fee statistics and surveys in the insurance or medical industry;
- (b) internal or industry claim statistics; and/or

However, if the policy holder or the insured person has already recovered all or part of the expenses from any such other insurance coverage, the Company shall only be liable for such amount of eligible expense, if any, which is not compensated by any such other insurance coverage.
