Disability income during difficult times

Product brochure

Secure your income during disability

Most people today recognise the importance of life insurance in their personal and family financial planning. But how many of us consider the implications of not being able to earn a regular income? When your income stops, who will pay your mortgage and bills? Will your income decline and expenses rise, causing debt exposure? How long will your employer pay you sick leave? Will you have enough savings to cover your expenditure till you are fully recovered from disability?

What you need is a plan that starts working when you become disabled. **Disability Income Protection** (“**DIP**”) and **Disability Income Protection Plus** (“**DIPP**”) protect you against the risk of loss of income if you are unable to work due to sickness or injury caused by an accident, giving you financial support when you need it most.

Total disability benefit

In the unfortunate event that you become totally disabled^{1,2}, a monthly benefit up to 70% of your monthly earnings^{3,4,5} will be paid to you after the waiting period. You can use the cash to cover the day-to-day expenses and medical treatment costs.

Partial disability benefit

If, after receiving total disability benefit for 14 days or more, you partially recover and return to work at a reduced capacity, we will provide you with a partial disability benefit^{3,6} instead of the total disability benefit. A monthly benefit which is in proportion to the reduction in your earnings will be paid to you, helping you get back on your feet again.

The following hypothetical example illustrates the calculation of partial disability benefit:

Assumptions	
Monthly benefit for total disability	\$14,000
Monthly earnings before total disability	\$20,000
Monthly earnings at a reduced capacity	\$8,000
Monthly benefit for partial disability	$= \$14,000 \times (\$20,000 - \$8,000) / \$20,000$ = \$8,400

Choices of Maximum Benefit Period

As long as the condition of disability sustains, the relevant monthly benefit will be paid till the end of the Maximum Benefit Period. You may choose a Maximum Benefit Period of 2 years, 5 years or up to age 65⁷ according to your needs.

As a special feature of **DIP** and **DIPP**, if the total disability is due to injury caused by an accident, we will pay the total disability benefit for lifetime as long as the condition of total disability sustains.

Escalating benefit (Exclusive to DIPP)

The monthly benefit that you receive from either total or partial disability will be adjusted at the end of each 12 continuous months of payment. The adjustment will reflect the percentage change in the consumer price index during the previous 12 months up to a maximum of 6%.

Death benefit

In addition, we provide a death benefit in the unfortunate event of death whether disability occurs or not. The death benefit is equal to 3 times of the monthly total disability benefit, less any benefits already paid if the death happens while you are disabled.

Waiver of premium

If you become totally disabled, and you are unable to work for a period of 6 continuous months or longer, we will step in and pay your future premiums until your total disability benefit ceases. Premiums paid during the first 6 months of total disability will be refunded.

Index-linked Increase Endorsement^{8,9}

To guard against the pressure of inflation, an Index-linked Increase Endorsement may be attached to your policy. While this endorsement is in effect, the protection amount will be automatically increased every year with extra premiums. The rate of increase will be determined with reference to rises in the consumer price index.

Other features

- Guaranteed renewal every 12 months with protection up to age 65 of the insured
- Flexible policy arrangement of either attaching **DIP** or **DIPP** to other AXA basic plans or setting it up as a basic plan

Important information

Cooling-off period

If you are not completely satisfied with the policy, you have the right to cancel the policy and obtain a refund of any premium(s) paid provided that there is no claim payment made under the policy prior to your request for cancellation.

For policy issued in Hong Kong: To exercise this right, please return the policy (if applicable) and send your signed written notice of cancellation directly to our Customer Service at Suite 2001, 20/F, Tower Two, Times Square, 1 Matheson Street, Causeway Bay, Hong Kong within **21 calendar days** immediately following either the day of delivery of the policy or the notice of policy issuance (notifying you of the cooling-off period) to you or your nominated representative (whichever is earlier). The policy will then be cancelled and a refund of any premium(s) paid and any levy paid will be returned to you.

For policy issued in Macau: To exercise this right, please return the policy (if applicable) and send your signed written notice of cancellation directly to our Customer Service at Avenida do Infante D. Henrique No.43-53A, 20 Andar, The Macau Square, Macau within **21 calendar days** immediately following the day of delivery of the policy to you or your nominated representative. The policy will then be cancelled and a refund of any premium(s) paid will be returned to you in policy currency.

Policy currency

If your policy is denominated in a currency other than your local currency, you may face an exchange rate risk. Upon currency conversion, the amounts you receive and the premiums you pay may vary as a result of changes in exchange rate.

Premium adjustment

The premium is calculated with reference to a number of factors including but not limited to the age, gender, occupation and risk class of the insured at the time of issuance of **DIP** or **DIPP** and will be adjusted every 5 years based on the insured's attained age. However, premium rates are not guaranteed. We reserve the right to review and adjust the premium rates on each policy anniversary with reference to the past performance and future outlook of factors such as claims, investment returns, policy persistency and expenses.

Non-payment of premium

You should pay premiums for the whole of your premium payment term. Any premiums remaining outstanding at the end of the grace period (i.e. 31 days after premium due date) may lead to termination of your policy. You may lose the insurance protection offered by the policy.

Inflation

The cost of living in the future is likely to be higher than it is today due to inflation. In case the actual rate of inflation is higher than expected, the purchasing power of the amounts you receive under the policy may be lower than expected.
